Our Palliative Care Team provides support and symptom management for the physical, emotional, and spiritual issues faced by those living with the illness and their loved ones, allowing for improved quality of life.

Palliative Care is provided by a specially trained team of healthcare professionals, social workers, a spiritual care team, music therapists and others. Our team doesn't replace your current health care team, we collaborate with your providers, giving you that extra layer of support, fast response, and help in navigating your care options.

Ways We Can Help
- Providing treatment for symptoms of dementia including depression, anxiety and insomnia
- Providing pain relief and treatment of symptoms from other conditions or illnesses like heart disease, diabetes, and more.
- Auditing all current medications, making sure that there are no interactions that pose a danger or are causing undue symptoms
- Providing a support structure, with conversations about your goals, concerns, and treatment options
- Offering guidance and helping you make decisions about feeding difficulties, infection, hospitalization, and the best place for care

Palliative Care is covered by most insurance companies and by Medicaid. You can request care directly, you don’t need a referral.

As symptoms progress, Four Seasons is there providing trusted support, guidance and care. We can help you plan for end-of-life care with a focus on comfort and quality of life. We provide Hospice Care in private homes, nursing centers, retirement communities, in the hospital or in our in-patient unit, Elizabeth House. Our Elizabeth House team also provides up to 5 days of Respite Care.

Our experienced Hospice Care team of professional healthcare providers will help your loved one be more comfortable, and make sure you have what you need as a caregiver. We also provide spiritual care, music therapy, counseling services and other support services to help your loved one and you, the caretaker.

We also take care of families and individuals who are grieving the loss of a loved one. Our professionally trained clinicians in Grief Services provide individual and group counseling for children, adolescents, and adults, regardless of hospice involvement. Funded by generous donations, these services are available at no cost to you.
